CAUSE OF ACTION 1

On 04/13/2026, while in my car, parked in Santa Monica, California I received a directed energy assault that caused sharp pain to the body, stomach, bio-effects like giving the sensation of incontinence. Pulses or audible clicks were heard that simultaneously reacted to RF Meters I placed on my car ' s dashboard and started recording video which was at first interfered with to try and stop me from recording. Devices like my smart phone and laptop will get hot too with the battery quickly draining. In Riley v California (2014) a ruling that supports the Forth Amendment against illegal searches of devices the activity the Plaintiff is describing would be similar. My smart phone was set in airplane mode so no cellular signals. I was sitting in my car making videos of my Dad ' s UFO propulsion sketches. It coincided with the targeting, all the elements of battery. Violates: 1st, 4th, 5th, 8th, 9th, 14th Amendments.

CAUSE OF ACTION 2

On 4/16/2026 at 12:48 AM while in my car at East Fork San Gabriel, above Azusa, CA, audible clicks/pulses can clearly be heard and strong RF Meter reaction because there is little RF interference in the mountains. My smart phone was set in airplane mode so no cellular signals. The audible clicks are followed by pain to the body. At the 06:20 mark of the video bio-effects like my stomach churning can be heard. Similar evidence was gathered in Weatherford, Texas on 3/28/2026 at 6:04 AM, where audible clicks, reaction to RF meters, and stomach churning can be heard. Weems v United States, 217 U.S. 349 (1910), states cruel and unusual punishment is not tied to narrow historic interpretation. The Plaintiff argues this ruling means emerging technology like directed energy weapons can still be a violation. At the time I was active making videos archiving my Dad ' s UFO propulsion sketches for social media (content creation) as a type of archive since his passing in December 2025. Violates: 1st, 4th, 5th, 8th, 9th, 14th Amendments.
